toppr | Learning app for class 5-12

You are one step closer to better learning

Every child is unique...

And they learn better with individual learning paths. Our adaptive practice uses Artificial Intelligence and Machine Learning to improve the individual strengths and weaknesses of students. Our students also learn with videos and live classes, and they get their doubts solved instantly, 24x7.

Over 1 Crore students are creating their unique learning paths on Toppr.

Every child deserves to learn better,

...so we make learning personalised.

360° learning

covers all your academic needs

Live Classes
